Instructions:

Using your researched information fill out the flowing comparing the current state of the art with what you think new (software) innovations could bring to the community

Covering the orientations	
Compare the left-hand column of the document "Technology configuration inventory" table with the right-hand column of the document "Community characteristics & orientation" table. What do you notice about the match (or mismatch) between your dominant community orientations and the current configuration of tools?	
How well does the technology inventory cover the orientations? What themes emerged from both the community orientations and the technology configuration from your colleagues' notes	Technology inventory covers all the important community orientations. All platforms provide common function of selling and purchasing the land. But I want to add similar feature of renting and leasing a land.
☐ Are you almost there? ☐ Are there big gaps?	This is the documentation and designing phase. So, I am not there and also there are not big gaps.
What is the range of skills? If their interests and/or skills are diverse, could it cause conflict or distraction?	Users belong to the different occupations so their range of skills are also diverse. According to my knowledge, it could not create any conflict or distraction.
Achieving integration	
Look at all the pieces of your configuration	
What level of integration and interoperability has been achieved?	The integration between documentation and work flow of design has been achieved.
Where are there big gaps	In this phase of the development, there are no such big gaps found.
Balancing the polarities (Current state)	
How is the configuration balanced with respect to each polarity?	

Synchronous >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>> …Synchronous tools?	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Asynchronous** Land advertisement for selling and buying
Participation >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>> …Participation tools?	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Reification** E-Broker/Agent
Group >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>> …Group tools?	<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<<< **Individual** Landscape exploration

How well does this balance fit your community?	This balances my community properly.

Solution seeking

In the new configuration, I want to provide the additional functions such as land for rent and lease which are not available in many real estate sites.
